Live A Happy "LIFE"

The Gospel Singing Baxter Family

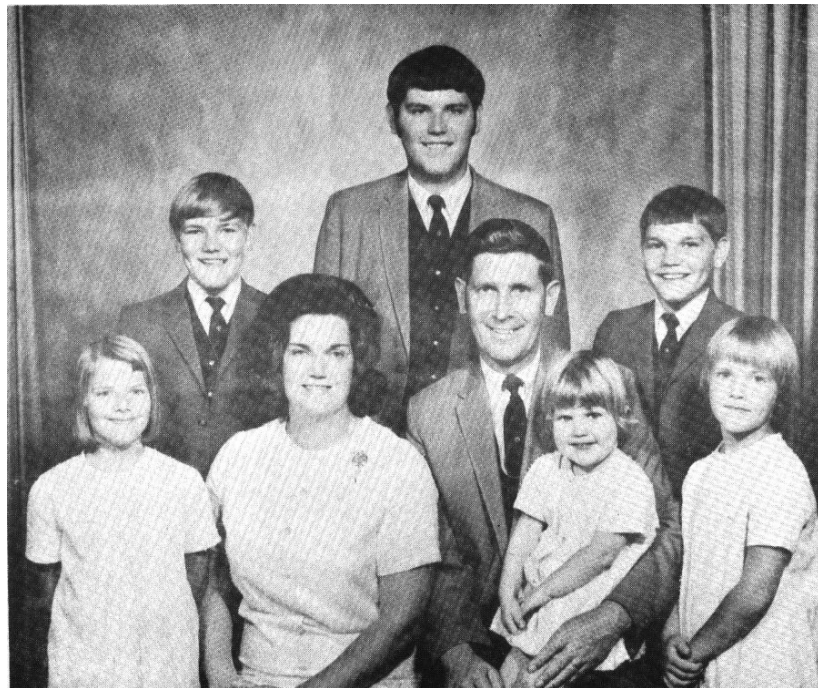

Over a period of the past decade many groups have appeared on the Gospel Music scene and then quietly drifted away. The reason? Simply because it takes so much time, hard work, DEDICATION to the Lord's work, and finances to operate.

The Baxters are not strangers to Gospel Music. They have overcome the many trials and hardships in the past few years that either makes a group successful or causes it to fall by the wayside.

With this new album, the Baxters come on stage with a professional quality which will cause many influential people to take notice and realize their great improvement in so short a time. Professional quality, interwoven with fresh new material, and topped off with Arkansas' best personalities makes the future look very promising for this group.

Words cannot express the influence that the Baxters have on people they come in contact with, so without further hesitation, let them tell you how to Live a Happy "Life."
